International Conference on

Pulses: Smart Crops for Agricultural Sustainability and Nutritional Security

Feb. 10-12, 2023

C. Subramaniam Auditorium, NASc Complex, Pusa, New Delhi- 110012 India

REGISTER NOW

To commemorate the auspicious occasion of World Pulses Day 2023, the Indian Society of Pulses Research and Development (ISPRD), Indian Institute of Pulses Research (IIPR) and Indian Council of Agricultural Research are organizing the International Conference on "Pulses: Smart Crops for Agricultural Sustainability and Nutritional Security". The conference is being co-organized by DACFW-GoI, ICARDA, ICRISAT, WorldVeg, IPGA, Bioversity International, UPCAR, NAAS and many other national and international collaborators. This conference aims to focus on the developments on accelerating genetic gains through conventional and modern breeding and biotechnological tools, integrated crop-, pest- and nutrient management, natural farming, post-harvest processing, value addition and socio-economic upliftment of farmers through inclusion of pulses. The event will attract international audience for a common goal of creating awareness of the benefits of pulses as well as drive the agenda for increase in production, productivity and consumption. The organizing committee is privileged to invite you to participate in this event and enrich the deliberations with your experience.

Technical sessions

- Farm to Fork: Policy, Planning and Perspectives
- Mendelian Breeding for Crop Resilience
- Modern Tools for Crop Improvement
- Enhancing the Crop Produce
- Revisiting the Roots
- New Vistas in Stress Resilience
- Innovative Extension Approaches
- Nutri-Smart Pulses and Data Driven Decision Making

Important deadlines

Registration: January 15, 2023
Registration with late fee: January 16, 2023 onwards
Submission of abstract: December 31, 2022
Notification of acceptance: January 10, 2023
